

Name – Shiva Kumar

Roll NO – 20210004

1) WAP to find volume of a cuboid.

```
class cuboid
{
    public static void main(String args[])
    {
        double l,b,h;
        l=5;
        b=10;
        h=10;
        double cube=l*b*h;
        System.out.println("Volume of cuboid is: "+cube);
    }
}
```

2) WAP to print grades of students with given marks of 3 subjects.

```
class grade3
{
    public static void main(String args[])
    {
        int eng,hin,math;
        eng=68;
        hin=78;
        math=88;
        double grade =(eng+hin+math)/3;

        if(grade>=95 && grade<=100)
            System.out.println("A Grade");
        else if(grade>=85 && grade<=94)
            System.out.println("B Grade");
        else if(grade>=75 && grade<=84)
            System.out.println("C Grade");
        else if(grade>=65 && grade<=74)
            System.out.println("D Grade");
        else
            System.out.println("E Grade");
    }
}
```
